

THANANDORN EAMTAKO

Web Developer | Full-Stack Developer

Web developer with over 2 years of experience in back-end development using Node.js, primarily with Express.js and NestJS.

Skilled in building APIs and Database, with a understanding of front-end development as well.

Experienced in both corporate projects and personal development work.

Strengths: Fast learner, quick problem-solver, and adaptable under pressure.

Career Goal: To grow into a DevOps role.

Professional Experience

January 2025 – Present • Bangkok

Web Developer (Temporary)
The Amiris Co., Ltd.

Engaged temporarily (4–6 months) to support the family business during a period of expansion. Leading the revamp and redevelopment of www.theamiris.com and related digital systems. Responsible for enhancing performance, streamlining functionality, and supporting key operational platforms, including payroll systems.

Collaborate with digital marketing teams and developers to align the digital infrastructure with the company's growth strategy.

Started as an intern, responsible for debugging and maintaining a content publishing web platform using Express.js and MongoDB. During the internship, I developed a full-stack internal task management tool, similar to Trello, using React and Express.js.

January 2023 – December 2024 • Bangkok

Web Developer
Gramick House

After being hired full-time, I contributed to a variety of projects across Agri-Tech, E-Commerce, and Smart City domains.

Key Contributions:

- Developed and maintained a drone data dashboard system using Express.js and PostgreSQL (Sequelize)
- Built the backend and collaborated on database design with a senior developer for an agriculture platform, using NestJS and PostgreSQL (Prisma) — supporting both a mobile app (Client) and admin web panel
- Helped Build the backend structure for Smart Parking and E-Wallet systems

Technologies Used:

TypeScript, NestJS, Express.js, React, Prisma, Sequelize, Mongoose, PostgreSQL, MongoDB

Education & Training

Sripatum University, Bangkok

Bachelor of Science in Information and Communication
Technology

August 2019 – May 2023 Graduated with GPAX 3.28

Wall Street English

Ongoing English Training

February 2025 – Present

Software Park Thailand Code Camp, Bangkok

Full Stack JavaScript for Web Development

July 2022 – November 2022 Completed an intensive training program in full-stack web development.

Key Projects:

- Personal E-Commerce Website – Built with React.js, Tailwind CSS, Git, MySQL, and Node.js.
- Group Booking App – Led back-end development for a team of five while supporting front-end tasks. Developed using React.js, Tailwind CSS, MySQL, and Node.js.

Technical Skills:

Front-End

React.js, Tailwind CSS

Version Control & Collaboration

Git, GitHub, Gitlab

Back-End

Node.js, NestJS, Express.js

- Database: PostgreSQL, MySQL, MongoDB
- ORM: Prisma, Sequelize, Mongoose

Soft Skills

Problem-Solving, Project Management, Collaboration

Programming Languages

TypeScript, JavaScript, HTML/CSS

Design & Multimedia

Adobe Lightroom, Premiere Pro, Figma, Canva

Languages

English (Intermediate – TOEIC B2 Equivalent; currently training toward professional business proficiency)
Thai (Native)

Licensed driver; open to travel for work
